BOARD COMMITTEE REPORTS

*Finance, Compliance, Personnel, Investment, and Audit (FCPI&A)

Committee Chair Matt Kahn turned over the report from the Finance, Compliance, Personnel, Investment, and Audit Committee to President Podell and Vice President Edward.

Finance Items

President Podell reported that Marcus Edward has taken over as Vice President for Finance and Administration. The Budget vs. Actual Comparison report continues to indicate a positive variance. The College anticipates a smaller variance as the fiscal year nears its end as people return to campus this semester.
Vice President Edward reported the following:

**FY2022 Budget vs. Actual Comparison Report – February 2022**

The January Budget vs. Actual report shows a favorable variance of approximately $1,378,000. The variance is due to better performance on revenue and expenses when compared to budget. Vice President Edward explained that the positive variance of $458,000 in revenue was a result of the positive variance in tuition and fees of $356,000. The College budgeted for a 10% decline in FTE enrollment but realized only a 7.7% decline in the fall, and a 2.4% decline in the spring. On the expense side, the permanent staff category shows a positive variance of almost $560,000. This variance is attributable to the “great resignation” and the number of open permanent staff positions, as well as to budgeted salary increases that are yet to be paid. Negotiations with the unions are ongoing, and the budgeted 1.5% NUP salary increase will correspond retroactively with the union increase. Vice President Edward explained that Administrative Expenses will always see a positive variance because the contingency is budgeted in that line, and funds are transferred from there as necessary. Now that the College is returning to more in-person classes and work, expenses will be higher. The majority of expenses will be realized in the second half of the fiscal year. In addition to employee-related savings, other factors included a positive variance in maintenance/construction and capital expenses.

**MOTION:** Trustee Kahn moved to approve the FY2022 Budget vs. Actual Comparison report for February, and Trustee Silva seconded the motion.

The motion passed via the following roll call vote: Trustee Kahn – YES; Trustee Pyrtel – YES; Trustee Sanz – YES; Interim Chair Schmalensee – YES; Trustee Silva – YES; Trustee Thorne – YES; Trustee Vincent – YES.

**Student Accounts Receivable and Cash Comparison Report**

The Student Accounts Receivable and Cash Comparison Report shows a 3% increase in receivables, which is due to timing. The cash balance reflects an increase in cash of $8.9 million, almost $7 million of which is due to CARES Act reserves.

**Cash Position by Month**

An additional line indicating the cash balance without CARES Act reserves has been added to the Cash Position by Month report for FY2022.

**Framingham Campus Budget Overruns**

Vice President Edward provided a summary of the budget overruns for the construction of the new Framingham Campus. Most expenses were increases in HVAC and electrical expenses, resulting in a total shortfall of around $7 million, of which the State is covering the vast majority. President Podell noted that the costs will fluctuate, especially given the current circumstances in Ukraine.

**Comparative Financial and Enrollment Review of Massachusetts Community Colleges**

Vice President Edward shared the notes from the *Massachusetts Community Colleges Chief Financial Officers Enrollment Reports*, which show data from the 15 Massachusetts community colleges. For spring semester, although all colleges’ enrollment declined, MassBay had the smallest decline. It was noted that for the colleges that did not require proof of vaccination before registration, the average decline was 6.7%, compared to 11% for
colleges that required proof of vaccination before registration.

President Podell explained that students taking only remote classes are not required to be vaccinated. However, students coming to campus and all MassBay employees are required to be vaccinated, with some accommodations made for religious or medical reasons. He also noted that enrollment of new students at MassBay specifically went up 28% in the spring, which bodes well for fall enrollment.

The *Financial Review of the Cash and Investments Per Audited Financial Statements* of the Community Colleges show that MassBay was below the average cash balance for two of the last three years, and only nominally above average (2%) for FY2021. Many of the community colleges (11/15) have investment advisors.

**Investment Items**

Of the twelve vendors that showed interest in the Request for Proposals (RFP), seven submitted responses. Management, including Marcus Edward, Neil Buckley, David Podell, Steve Baccari, and Lauren Curley, along with AlderBrook, will be talking to three firms on March 10 and will bring their recommendation to the April 5 meeting of the FCPI&A Committee for deliberation.
