Subject: Daily Update 3-24-2020 – AMENDED

Dear Fellow Members of the MassBay Community,

Here is today's COVID-19 update. Please remember this is an ever-changing situation, and it is very important to check your MassBay email account daily.

Social Distancing and Remote Work

In an on-going effort to help prevent the spread of COVID-19, we all must stay home and social distance ourselves as much as possible. Because of this, MassBay will only allow essential employees to have access to our buildings, effective immediately. For this situation, essential employees are public safety, facilities, shipping and receiving personnel. If faculty and staff members are in need of accessing any of our buildings, they must first contact their dean or supervisor. All student services are available via email and phone.

Campus Cleaning

All three campuses will continue to be cleaned and rooms will be sealed off to keep anyone from entering those offices and classrooms to ensure they remain clean.

MassBay Donates Personal Protective Equipment (PPE)

MassBay has donated PPE to local medical facilities in an effort to help front line health workers stay healthy while treating patients. [You can read more here.](#)

We will continue to update you daily by 4pm, but you can always find the latest information on our website www.MassBay.edu/coronavirus. Please remember, **if you are sick do not come to campus**, but report this to Public Safety at 781-239-2222. If you have any questions, please email your dean or supervisor.
