

STEM MENTOR PROGRAM

Information Sessions

The **STEM Mentor Program** matches MassBay Community College STEM students with STEM industry professionals in one-on-one relationships throughout the course of the academic year. The goals of the program are to support students' academic and career aspirations by providing supportive mentoring relationships and STEM-focused events and opportunities. All full-time and part-time, new and returning STEM students are eligible to participate. To find out more about the program, please attend one of the information sessions. **Attendance at ONE of the information sessions is required to participate in the academic year 2019-2020 program.**
