

FINANCIAL PETITION

A student may submit a financial petition if <u>extenuating circumstances</u> occurred preventing the student from completing coursework for a term. The financial petition process can be used to request a tuition and fee adjustment after the published deadline due to these circumstances. Any grades received and recorded on the student's transcripts <u>will not</u> be affected by this process and will remain a part of the student's academic record.

All requests must be completed within 6 months of the end of the semester that is being petitioned and include:

- The Financial Petition cover page
- ❖ A typed explanation of the extenuating circumstances
- Any relevant supporting documentation (letter from health professional, death certificate, military orders, etc.).

 All medical documentation should be originals, on official letterhead and signed by a licensed professional.

An incomplete appeal will be denied. In addition, please be aware of the following:

- Completing the appeals process does not guarantee an adjustment or approval.
- ❖ It is the student's responsibility to drop/withdraw from courses within the published deadline. Failure to withdraw is not considered an extenuating circumstance.
- Any adjustment to the charges on a student's account may impact the amount of financial aid received for that term, which could result in the student owing the College money. It is strongly suggested that you meet with a Financial Aid Representative before you file an appeal.

	cial appeal will remair			edu. Documentation will not be returned and
