AUTOMOTIVE TECHNOLOGY ACADEMY

Accelerate
Your Career

EXPLORE AUTOMOTIVE TECHNOLOGY

Is the Automotive Technology Academy a good choice for you? Consider these questions:

Have you always been interested in cars?

Do you like working with tools and consider yourself to be technically inclined?

Are you capable of explaining complex issues to others?

Are you looking for hands-on training combined with challenging coursework?

Choose MassBay for:

- Programs featuring a co-op, where **students earn money in the field** while earning their credential;
- An associate degree, rather than just a certification program elsewhere; or
- A certificate program that offers the training the manufacturer has helped develop;
- The **best value** automotive technology program for quality and cost in all of New England.

Why Automotive Technology?

- 70,000 new automotive technicians are needed each year.*
- 98% of MassBay Automotive Technology graduates have a job in the field within six months of graduation.

* US Bureau of Labor Statistics.

The MassBay Advantage

MassBay Automotive Technology programs are sponsored and certified by world-renown manufacturers including BMW, Jeep/Dodge/Ram/Chrysler, General Motors, and Toyota/Lexus and master certified by the Automotive Service Excellence Education. Upon graduation, you will be certified as a technician by the manufacturer and prepared to take and pass the Automotive Service Excellence (ASE) certification exam.

Manufacturer Programs

BMW, Jeep/Dodge/Ram/Chrysler, General Motors, Toyota/Lexus

Upon successful completion of one of our manufacturer sponsored programs, students will be certified as a technician by that manufacturer and prepared to take and pass the Automotive Service Excellence (ASE) certification exams. All manufacturer programs are master certified by the Automotive Service Excellence Education Foundation and their respective manufacturer.

Automotive Technology

Associate Degree Programs

Automotive Technology: All-Brand

The All-Brand Automotive Technology program prepares you to become a professional automotive technician working for the company or brand of your choosing. All-Brand students focus on systems and repairs common to all vehicles. In addition to receiving classroom and hands-on instruction, you will participate in a cooperative study program where you will be paid to work at any All-Brand approved repair facility. Upon graduation, you will be prepared to take and pass the Automotive Service Excellence (ASE) certification exam, and you will be qualified for a career at independent, fleet, and manufacturer repair facilities.

Automotive Technology: BMW

This program prepares you to work as an automotive technician at a BMW or Mini dealership. In addition to classroom and hands-on instruction at MassBay's Automotive Technology Center, you will participate in a cooperative study program where you will be paid to work at a local BMW dealership.

Automotive Technology: Jeep/Dodge/Ram/Chrysler

The Mopar CAP (Career Automotive Program) provides specialized automotive curriculum and training that focuses on Stellantis vehicles, including Chrysler, Dodge, Jeep, and Ram (CDJR). In addition to classroom and hands-on instruction at MassBay's Automotive Technology Center, you will participate in a cooperative study program where you will be paid to work at one of 84 New England Jeep/Dodge/Ram/Chrysler dealerships.

Automotive Technology: General Motors

The General Motors Automotive Service Education Program prepares you for employment as an automotive technician at a General Motors dealership, working on Buick, Cadillac, Chevrolet, and GMC cars and trucks. In addition to classroom and hands-on instruction at MassBay's Automotive Technology Center, you will participate in a cooperative study program where you will be paid to work at one of more than 100 Massachusetts GM dealerships.

Automotive Technology: Toyota/Lexus

Sponsored by the Toyota Technical Education Network (T-TEN), this associate degree program prepares you to become a Certified Technician specializing in Toyota/Lexus vehicles. Through this program, you'll gain comprehensive knowledge in automotive systems and repair techniques, including those related to electrified vehicles, through a combination of classroom and hands-on training. Additionally, you'll start your career by participating in a cooperative study program, earning a wage while working at an approved Toyota or Lexus dealership. Upon successfully fulfilling all program requirements, including earning Automotive Service Excellence (ASE) certifications, and completing all manufacturer e-module assignments, you'll be awarded the manufacturer certification.

Automotive Technology Certificate Programs

Automotive Technology: Toyota/Lexus

Sponsored by the Toyota Technical Education Network (T-TEN), this certificate program prepares you to become a Certified Technician specializing in Toyota/Lexus vehicles. Through this program, you'll gain comprehensive knowledge in automotive systems and repair techniques, including those related to electric vehicles, through a combination of classroom and hands-on training. This program is a co-op, so you will make money by working at an approved Toyota or Lexus dealership while earning your certification. Upon successfully fulfilling all program requirements, including earning Automotive Service Excellence (ASE) certifications, and completing all manufacturer e-module assignments, you'll be awarded the manufacturer certification.

Automotive Technology: All-Brand

The All-Brand Automotive Technology program prepares you to become a professional automotive technician working for the company or brand of your choosing. All-Brand students focus on systems and repairs common to all vehicles. In addition to receiving classroom and hands-on instruction, you will participate in a cooperative study program where you will be paid to work at any All-Brand approved repair facility. Upon graduation, you will be prepared to take and pass the Automotive Service Excellence (ASE) certification exam, and you will be qualified for a career at independent, fleet, and manufacturer repair facilities.

“In addition to getting the precise training I needed to become a certified technician, I also earned my degree at MassBay. Having this credential will be a building block for my career in automotive technology no matter what I choose to do.”

Daniel Penny
